Computing with End-user Applications

Nancy B. Stern, Robert A. Stern

Computing with End-user Applications Nancy B. Stern, Robert A. Stern
This volume explains how and why computers should be used. Combining traditional computer concepts in a more applied and relevant format, the text discusses DOS, spreadsheet, database and word processing. It contains coverage of database management, an extremely difficult computer concept to grasp, and also gives considerable attention to its use in today's business environment. Topics like SQL (Structured Query Language) are also covered.
