Ecological Niches and Geographic Distributions (MPB-49) (Monographs in Population Biology)

A. Townsend Peterson, Jorge Soberón, Richard G. Pearson, Robert P. Anderson, Enrique Martínez-Meyer, Miguel Nakamura, Miguel B. Araújo

Ecological Niches and Geographic Distributions (MPB-49) (Monographs in Population Biology) A. Townsend Peterson, Jorge Soberón, Richard G. Pearson, Robert P. Anderson, Enrique Martínez-Meyer, Miguel Nakamura, Miguel B. Araújo

This book provides a first synthetic view of an emerging area of ecology and biogeography, linking individual- and population-level processes to geographic distributions and biodiversity patterns. Problems in evolutionary ecology, macroecology, and biogeography are illuminated by this integrative view. The book focuses on correlative approaches known as ecological niche modeling, species distribution modeling, or habitat suitability modeling, which use associations between known occurrences of species and environmental variables to identify environmental conditions under which populations can be maintained. The spatial distribution of environments suitable for the species can then be estimated: a potential distribution for the species. This approach has broad applicability to ecology, evolution, biogeography, and conservation biology, as well as to understanding the geographic potential of invasive species and infectious diseases, and the biological implications of climate change.

The authors lay out conceptual foundations and general principles for understanding and interpreting species distributions with respect to geography and environment. Focus is on development of niche models. While serving as a guide for students and researchers, the book also provides a theoretical framework to support future progress in the field.

From reader reviews:

Doris Anderson:

Do you one of people who can't read satisfying if the sentence chained from the straightway, hold on guys this aren't like that. This Ecological Niches and Geographic Distributions (MPB-49) (Monographs in Population Biology) book is readable simply by you who hate the perfect word style. You will find the info here are arrange for enjoyable reading through experience without leaving possibly decrease the knowledge that want to provide to you. The writer connected with Ecological Niches and Geographic Distributions (MPB-49) (Monographs in Population Biology) content conveys thinking easily to understand by a lot of people. The printed and e-book are not different in the content but it just different such as it. So , do you still thinking Ecological Niches and Geographic Distributions (MPB-49) (Monographs in Population Biology) is not loveable to be your top record reading book?

Robert Frye:

People live in this new day time of lifestyle always make an effort to and must have the time or they will get wide range of stress from both day to day life and work. So , when we ask do people have free time, we will say absolutely of course. People is human not a robot. Then we ask again, what kind of activity do you possess when the spare time coming to a person of course your answer can unlimited right. Then do you try this one, reading ebooks. It can be your alternative throughout spending your spare time, typically the book you have read will be Ecological Niches and Geographic Distributions (MPB-49) (Monographs in Population Biology).

Deana Broom:

In this age globalization it is important to someone to receive information. The information will make someone to understand the condition of the world. The condition of the world makes the information quicker to share. You can find a lot of personal references to get information example: internet, newspapers, book, and soon. You can observe that now, a lot of publisher which print many kinds of book. The particular book that recommended to you is Ecological Niches and Geographic Distributions (MPB-49) (Monographs in Population Biology) this guide consist a lot of the information on the condition of this world now. This book was represented how do the world has grown up. The dialect styles that writer make usage of to explain it is easy to understand. The particular writer made some exploration when he makes this book. That's why this book acceptable all of you.

Caroline Gonzalez:

You can find this Ecological Niches and Geographic Distributions (MPB-49) (Monographs in Population Biology) by go to the bookstore or Mall. Merely viewing or reviewing it could possibly to be your solve challenge if you get difficulties for your knowledge. Kinds of this book are various. Not only by simply

written or printed but also can you enjoy this book through e-book. In the modern era including now, you just looking from your mobile phone and searching what their problem. Right now, choose your own personal ways to get more information about your guide. It is most important to arrange you to ultimately make your knowledge are still update. Let's try to choose right ways for you.
