Using Elevate Web Builder: Web and Mobile Apps 2nd Edition

Erick Engelke

Using Elevate Web Builder: Web and Mobile Apps 2nd Edition Erick Engelke

Elevate Web Builder is a powerful ecosystem for building web pages and mobile apps using a variant of Object Pascal as popularized by Delphi and FreePascal/Lazarus. The applications are compiled to JavaScript and are compatible with all popular browsers and mobile devices. Generate small, fast and attractive web apps with minimal coding. The strong type-checking of Object Pascal makes reliable applications without the run-time errors associated with typical JavaScript programming. This book explains how to get started and goes into intermediate and advanced topics including drawing on the canvas, interacting with web servers and databases, multi-window applications, and all you need to develop almost any kind of Web app.
