Illustrated learning ideas on cards mean short, simple instructions, easy sorting, and quick visual cues to understanding the activity. Great for busy parents who want to spend time with their children rather than with the instructions. Age and subject-specific activities provide parents with ideas tailored to their child's age and developmental level. Little planning is required as most activities set up in moments. The materials are all found in the home, such as paper plates, masking tape, Zip-lock bags, Lego blocks, newspaper, photos, dice, etc. Providing a list of applicable developmental skills (such as language skills, hand-eye coordination, comprehension, and calculation skills) for an activity, offers a parent opportunities to develop or enhance a child's specific skills. Bright and Beyond decks have been recognized with numerous awards including Dr. Toys 100 Best Children's Products, and being voted #1 by Homeschool.com. With added endorsements from American Montessori Consulting, preschool directors, child development educators, and countless parents, customers can have the confidence that Bright and Beyond will meet their own high standards. For less than 19-cents per idea, parents are provided with quality, interactive, back-to-basics play and learning activities. One small package provides a year's worth of fun learning and play-time ideas. The primary goals of childhood are to grow, learn, and play. Learning through play is beautifully achieved with the activities in the Bright and Beyond decks. A parent (or other caring adult) is a child's favorite plaything. Bright and Beyond decks allow parents and children to play and spend time with their favorite people each other.
