Transformation of Man T J Hegland

Man is moving into a bright, new future with an updated Alternative Medicine, improved knowledge of Genetics, and an updated Spirituality to become what is called a Noetic being. Man is evolving again to a smarter, more capable human who is more compassionate and respectful of others and the planet. He is in the process of transforming himself and his civilization via the science of space travel, genetic correction of defects, a more enlightened view of God and the Afterlife, and healing himself with the physics of Energy Healing. This book examines the different aspects of transformation... See Back Cover for more about: Timelines, Nutrition that supports Transformation, the InterLife and the Heavenly Quantum Computer, Religion vs Spirituality and what a New World Religion could look like, Man's Transformation via Near Death Experiences and the Greys' Abductions -- how BOTH are a very positive experience and deliver a better world, ET-Human Hybrids (pix), Strange versions of hominids on Earth, past and present (pix), and 2 Chapters (11-12) on Energy healing -- the what and how based on recent discoveries in Physics: ZPE Field, thoughts and consciousness as torsion waves in the Matrix, the Heart's Torus, Dark Matter/Energy as AEther, Subquantum Kinetics, and an examination of Energy Healing modalities, including Matrix Reimprinting, FasterEFT, Qigong and Pranic healing techniques. All at the layman level. Also added is how the brain, DNA and higher consciousness are related; all exist within the Matrix (ZPE Field) and particular care is needed to support the brain with special nutrition such that the mind can function well. Additionally, brain games and exercises are suggested to facilitate the quest for higher consciousness. This is further developed in Book5: The Science in Metaphysics. A new Appendix D was added (due to several requests) as a major way to connect the dots with reference to Soul, Karma, Reincarnation, Scripts and OPs.
