The mysteries and myths of ancient sites such as the Great Pyramids of Giza and the Mayan temples of Central America, Stonehenge, Avebury, Glastonbury hold a perennial fascination for us all. Who built them, how, and for what purpose, are endlessly debated. David Furlong's 25 years of research form an important breakthrough in our understanding, provide amazing new concepts and information, and reveal an astonishing picture of our past. The Keys to the Temple presents startling new evidence about the history of mankind. After years of research David Furlong has discovered extraordinary patterns of alignments in the British landscape which link ancient sites and -- incredibly -- give a blueprint of the same geometric patterning found in the Great Pyramid in Egypt. These detailed calculations prove beyond doubt that a society with highly sophisticated astronomical, mathematical, and surveying knowledge was living in Britain and Northern Europe, 3000 years before Christ and creating highly complex "temples in the landscape". These events correspond exactly with the start of dynastic Egypt, the building of the pyramids, and the beginning of the famed Mayan Calendar. Who were these masterbuilders? Where did they come from? What roots did they share with the masterbuilders of Egypt and South America. What message did they hope to conceal in the landscape? This book is not only a carefully researched detective story but also a book that has implications for our very future.
