The 11+ Company

11+ Super Selective Maths: 30 Advanced Questions - Book 1 (Volume 1) The 11+ Company

The *11+ Super Selective Maths* series has been written especially for children who seek 'more than ordinary' mathematical challenges. Filled with questions designed to stimulate thinking rather than simply elicit learned responses, this series provides the challenge that able pupils seek. Selective UK secondary schools are increasingly developing entrance exams that test potential rather than coached learning. As such we do not offer any particular exam format (e.g. CEM Durham, GL Assessment). Instead children's learning will be brought to life by our questions that demand insight and grasp of the fundamental concepts underlying each problem. Our fully worked answers demonstrate different strategies for solving 11+ mathematical challenges. Attractively designed and with ample space inside for pupils to express their working, this series will lead pupils to discover the fun, beauty and elegance of Mathematics!

Each book in the *11+ Super Selective Maths* series -

- Contains 30 stimulating numerical and mathematical reasoning challenges
- Provides advanced practice material in mathematical thinking at 11+
- Includes fully worked answers & explanations
- Is suitable for use at the very top end of Key Stage 2 and at Key Stage 3
- Is suitable for practice for scholarship exams and at 13+
