From Psychic to Psychotic and Beyond: A true story about my bipolar disorder (Volume 1) Kerry Ann Jacobs

It was January 2009 in Wellington, New Zealand. I was 43 and overloaded with emotionally charged court cases as a sole family law barrister. I was missing my late grandmother. In my mind I called to her many times for her to visit me. She didn't but she did visit my mother in her dreams. My mother said that she was calm and serene. I began a path of psychic experimentation. I searched the internet for ways for me to increase my psychic awareness. I progressed to buying a crystal ball and images would unfold in front of me and then words started appearing. Soon I no longer needed the crystal ball, because full sentences were appearing before me on the ground. It was Wes my spirit guide communicating with me. He had been talking to me all along. When Wes started speaking to me in my head, he told me that he was my husband and he said: 'I love you to bits'. I was soon surrounded by spirits such as Marilyn Monroe, Princess Diana, Heath Ledger and Albert Einstein. We were doing everything together. I no longer needed anyone from the real world But unbeknownst to me, there were dark forces that were awaiting me, where all my worst fears would be realised. I would experience demons, the afterlife and the darkness of hell.
