The Work of the Hierophant Josephine McCarthy

'The Work of the Hierophant' covers methods of reaching for inner magical lines of contact and power, and how to bring them through into initiatory/consecrated lines. The book also looks in depth at the methods of building the inner temple and the egregore. The techniques in this book explore alternative ways for the Hierophant/Magus/Magister to approach the inception and development of a fully contacted magical lodge. The structure behind the magical technique is looked at, and approached in a way that is more harmonious with our 21st century consciousness.
