Part 3: How do I rate my Trading Results?

Scalping is the fastest way to make money in the stock market. There is hardly a more effective method for increasing a trader's capital. The Heikin Ashi Trader explains why this is so in this four-part series about scalping.

In this third book, the Heikin Ashi trader answers the question of how the trading results of a scalper are analyzed and correctly evaluated. Based on the weekly results of a single trader, he examines what factors matter to having long-term success in the stock market. The analysis of the trading journal for 12 weeks allows an inside look at the learning curve of a budding professional.

This highly effective scalping strategy applies to short time frames, such as the 1-minute chart, as well as longer periods. You can trade, using this universal method, in equity indices and in the currency markets. Typical instruments are futures, foreign exchange, and CFDs.
