Rules and Formulæ in Elementary Mathematics: With Notes B. Arnett

From the PREFACE.

A Student, after carefully working out the different formulæ in Mathematics, still requires great familiarity with these in order readily to apply them to the solution of various problems. If he works out a good number of examples illustrating the formulæ, he gains this familiarity in the best possible manner. But immediately before his examination he ought to review all his previous work, and this will be most advantageously done, if he has the rules collected in a condensed form.

Experience has taught the Author that school boys want something more than this, that not only must they work numerous examples and have general papers on the back work, but that they must also have periodical repetition of the formulæ, which will otherwise soon become strangers to them, and be a constant barrier to their progress in the higher work.

He has, therefore, written the following pages to afford easy reference, and to have the rules and formulæ so arranged that their repetition with viva voce examination on their application may be more conveniently made a part of the class work.

The notes consist of propositions, which have been written at different times to explain and illustrate difficulties that have most frequently been encountered in teaching.

Care has been taken in writing out the formulas to preserve the due order of the symbols, an arrangement that will be of great assistance to the memory, provided a like care is exercised by the learner. Any suggestions or corrections from Masters or Scholars will be thankfully received.

From reader reviews:

Jean Fuller:

Have you spare time to get a day? What do you do when you have a lot more or little spare time? Yes, you can choose the suitable activity to get spend your time. Any person spent their very own spare time to take a go walking, shopping, or went to typically the Mall. How about open or maybe read a book entitled Rules and Formulæ in Elementary Mathematics: With Notes? Maybe it is being best activity for you. You already know beside you can spend your time using your favorite's book, you can smarter than before. Do you agree with it has the opinion or you have different opinion?

Lana Alvis:

Book is definitely written, printed, or descriptive for everything. You can learn everything you want by a reserve. Book has a different type. As you may know that book is important point to bring us around the world. Adjacent to that you can your reading skill was fluently. A guide Rules and Formulæ in Elementary Mathematics: With Notes will make you to be smarter. You can feel much more confidence if you can know about every little thing. But some of you think in which open or reading some sort of book make you bored. It is not make you fun. Why they could be thought like that? Have you seeking best book or appropriate book with you?

Tim Walton:

This book untitled Rules and Formulæ in Elementary Mathematics: With Notes to be one of several books this best seller in this year, honestly, that is because when you read this e-book you can get a lot of benefit onto it. You will easily to buy this particular book in the book retail outlet or you can order it by way of online. The publisher of the book sells the e-book too. It makes you easier to read this book, as you can read this book in your Mobile phone. So there is no reason to your account to past this guide from your list.

Duane Vega:

As a student exactly feel bored in order to reading. If their teacher expected them to go to the library or even make summary for some publication, they are complained. Just very little students that has reading's soul or real their interest. They just do what the instructor want, like asked to go to the library. They go to presently there but nothing reading critically. Any students feel that reading through is not important, boring in addition to can't see colorful pics on there. Yeah, it is being complicated. Book is very important for you personally. As we know that on this age, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. So , this Rules and Formulæ in Elementary Mathematics: With Notes can make you experience more interested to read.
