The Penn Center Guide to Bioethics

Named an Outstanding Academic Title for 2009 by *Choice!*

[A] set of almost 70 essays, all well informed and many with attitude.

Harold Shapiro, PhD

Professor Emeritus and Professor of Economics and Public Affairs
Princeton University, Former Chair, National Bioethics Advisory Board

This most noteworthy and authoritative collection of 67 essays...represents 'the Penn way of doing bioethics'The Penn Center is widely known for multidisciplinary scholarship that emphasizes empirical inquiry on bioethical issues coupled with practical application(s)....The book provides excellent coverage of...both classical topics (e.g., informed consent, infertility, eugenics) and emerging issues (e.g., cloning, nonprofessional caregiving, privacy of thought in the age of brain imaging). The contributors, including the three editors, are either well-established or emerging scholars. Each essay offers historical background, an overview of relevant issues, a conclusion, and a list of references....**Summing Up: Highly recommended.**--**Choice: Current Reviews for Academic Libraries**

This well-written book addresses a wide-ranging assortment of traditional bioethics issues that persist in the field as well as contemporary bioethics concerns that have evolved with new technologies and medical advances. This is a great resource for scholars in bioethics as well as various other relevant disciplines concerned with bioethical issues." **Score: 96, 4 stars--Doody's Medical Reviews**

The Center for Bioethics at the University of Pennsylvania is the internationally recognized leader in bioethical education and research. Its interdisciplinary faculty is drawn from the fields of medicine, law, nursing, education, philosophy, psychology, and religious studies. Arthur L. Caplan, the Center's founding director, is recognized as one of the most influential experts in bioethics. He has authored numerous books and articles, and served as the Chair of the Advisory Committee to the United Nations on human cloning.

The Penn Center's leading fellows, Autumn Fiester and Vardit Ravitsky, have combined their expertise with Dr. Caplan and over 80 other contributors to create *The Penn Center Guide to Bioethics*--the foremost authority on both traditional and cutting-edge bioethical issues. *The Penn Guide* navigates uncharted ethical terrains, undoubtedly shaping both academic and public discourses on the challenging controversies generated by new technologies, theories, and medical advances.

This volume represents the Penn Center's distinct, pioneering approach to bioethics, one that emphasizes empirical treatment of bioethical issues, and the integration of bioethical scholarship with practical application.

Learn what the Penn Center has to say about:

- Neuroethics and brain imaging: Is my mind mine?
- Choosing future people: reproductive technologies and identity
- Eugenics and survival of the fittest in the modern world
- Bioethics and national security
- Vaccination, abortion, nanotechnology, organ transplantation, end-of-life issues, and more

The Penn Guide will be the definitive text for policy makers, health practitioners, researchers, and students. This book will also inform the general public, patients, and family members as they seek answers to the bioethical issues of the day."
