The Past in Perspective: An Introduction to Human Prehistory Kenneth L. Feder

Ideal for introduction to archaeology and world prehistory courses, *The Past in Perspective: An Introduction to Human Prehistory*, Fifth Edition, is an engaging and up-to-date chronological introduction to human prehistory. Kenneth L. Feder introduces students to "the big picture"--the grand sweep of human evolutionary history--presenting the human past within the context of fundamental themes of cultural evolution. Written in a refreshingly accessible voice, this narrative of human prehistory personalizes the past and makes it relevant to today's students.

Using a consistent chapter format--Prelude, Chronicle, Issues and Debates, and Case Study Close-up--Feder helps students master both what we know and what is still being debated about the complex story of the human past. Each chapter also includes an overview; a timeline of events, maps pinpointing locations of sites discussed, site lists with page references, a chapter summary, key terms (defined in the glossary at the back of the book), and suggested reading lists.
