Economics and the Environment Eban S. Goodstein, Stephen Polasky

Economics and the Environment 7th Edition, provides a rigorous and comprehensive presentation of the "standard analysis," including the property-rights basis of environmental problems, efficient pollution control, benefit-estimation procedures, and incentive based procedures. This text examines a broad range of topics in environmental and natural resource economics. It presents in-depth treatment of important issues at the cutting edge of environmental policy debates. The focus is on equipping students with the tools necessary to analyse current environmental issues as an economist would.
