Advanced Lectures on Machine Learning: Machine Learning Summer School 2002, Canberra, Australia, February 11-22, 2002, Revised Lectures (Lecture Notes in Computer Science)

Machine Learning has become a key enabling technology for many engineering applications and theoretical problems alike. To further discussions and to disseminate new results, a Summer School was held on February 11–22, 2002 at the Australian National University. The current book contains a collection of the main talks held during those two weeks in February, presented as tutorial chapters on topics such as Boosting, Data Mining, Kernel Methods, Logic, Reinforcement Learning, and Statistical Learning Theory. The papers provide an in-depth overview of these exciting new areas, contain a large set of references, and thereby provide the interested reader with further information to start or to pursue his own research in these directions. Complementary to the book, a recorded video of the presentations during the Summer School can be obtained at <http://mlg.anu.edu.au/summer2002> It is our hope that graduate students, lecturers, and researchers alike will find this book useful in learning and teaching Machine Learning, thereby continuing the mission of the Summer School. Canberra, November 2002 Shahar Mendelson Alexander Smola Research School of Information Sciences and Engineering, The Australian National University Thanks and Acknowledgments We gratefully thank all the individuals and organizations responsible for the success of the workshop.

From reader reviews:

Doris Williams:

Exactly why? Because this Advanced Lectures on Machine Learning: Machine Learning Summer School 2002, Canberra, Australia, February 11-22, 2002, Revised Lectures (Lecture Notes in Computer Science) is an unordinary book that the inside of the e-book waiting for you to snap this but latter it will distress you with the secret that inside. Reading this book close to it was fantastic author who also write the book in such amazing way makes the content within easier to understand, entertaining means but still convey the meaning completely. So , it is good for you because of not hesitating having this ever again or you going to regret it. This phenomenal book will give you a lot of positive aspects than the other book include such as help improving your proficiency and your critical thinking approach. So , still want to hold off having that book? If I have been you I will go to the publication store hurriedly.

Elaine Bell:

Many people spending their moment by playing outside using friends, fun activity having family or just watching TV the whole day. You can have new activity to invest your whole day by reading a book. Ugh, think reading a book can really hard because you have to bring the book everywhere? It all right you can have the e-book, taking everywhere you want in your Touch screen phone. Like Advanced Lectures on Machine Learning: Machine Learning Summer School 2002, Canberra, Australia, February 11-22, 2002, Revised Lectures (Lecture Notes in Computer Science) which is having the e-book version. So , why not try out this book? Let's see.

Debra Brunette:

Don't be worry in case you are afraid that this book will probably filled the space in your house, you will get it in e-book approach, more simple and reachable. This specific Advanced Lectures on Machine Learning: Machine Learning Summer School 2002, Canberra, Australia, February 11-22, 2002, Revised Lectures (Lecture Notes in Computer Science) can give you a lot of pals because by you investigating this one book you have issue that they don't and make a person more like an interesting person. This kind of book can be one of a step for you to get success. This guide offer you information that perhaps your friend doesn't know, by knowing more than different make you to be great people. So , why hesitate? Let's have Advanced Lectures on Machine Learning: Machine Learning Summer School 2002, Canberra, Australia, February 11-22, 2002, Revised Lectures (Lecture Notes in Computer Science).

Susan Gaier:

A lot of book has printed but it is different. You can get it by online on social media. You can choose the very best book for you, science, comedy, novel, or whatever simply by searching from it. It is called of book Advanced Lectures on Machine Learning: Machine Learning Summer School 2002, Canberra, Australia,

February 11-22, 2002, Revised Lectures (Lecture Notes in Computer Science). You can include your knowledge by it. Without making the printed book, it could possibly add your knowledge and make you actually happier to read. It is most critical that, you must aware about e-book. It can bring you from one destination to other place.
