Pest Control Simplified for Everyone: Kill, Repel, or Mitigate Pests with or Without Pesticides Danny LeDoux

Why call an exterminator? Save thousands of dollars every year. Protect your family and property, and keep yourself safe from disease. This guide will teach you the art of responsible pest elimination. Have you stared at shelves of pesticides wondering which to buy, which are safe, which treatment will eliminate your pest, and how to apply it? If so, this book is for you. You only lack the trade secrets and the knowledge, such as safe application methods, how to prevent an attack in the first place, when killing is not necessary, and how all of this affects our environment. Before you buy your next can of bug spray, before you get bitten again, before you buy or sell a house, or before you go outdoors, read this book and learn how to: Kill all types of household and yard pests; Select the appropriate pesticides and use them safely; Kill responsibly; Kill without chemicals; Affordably protect your home or apartment from pests; Minimize environmental impact; Decide when to use residual or non-residual pesticides; Select the appropriate equipment; Prevent insect bites; Inspect a property before buying; Design a pest-proof house; Kill noxious weeds; Prevent your pets from getting ticks; Avoid deadly house explosions during flea treatments; Find vitamins that help prevent insect-borne diseases; Kill bedbugs or prevent infestations; Kill fire ants with only water; Kill head lice safely; Prevent deer and rabbits from eating your garden; Kill termites for only a few dollars instead of thousands. YOU are smarter than a bug! The book's first half explains pesticides in layman's terms, advises which to purchase, and how to use them safely. The second half explains how to control insects, fungus and animals with or without pesticides. After reading, any layperson becomes an expert pest controller saving thousands of dollars and providing a pest free environment to live in.
