Proceedings of the 2007 National Conference on Environmental Science and Technology

Proceedings of the 2007 National Conference on Environmental Science and Technology

The Third National Conference on Environmental Science and Technology was held in Greensboro, N.C., on September 12-14, 2007. The purpose of the conference was to address pollution prevention needs, solutions, and research, and to foster relationships that could result in partnerships needed to protect and sustain the environment and improve the quality of life. The book contains the following topics: pollution prevention, fate and transport of contaminants, bioremediation, bio-processing, innovative environmental technologies, global climate change, and environmental justice and ethics.
