The work shown at the U.S. Pavilion at the 2010 Venice Biennale is vital and proactive, suggesting solutions, describing the possibilities of new techniques or technologies, or re-framing the problems of the city, and, in the process, defining a new model of architectural practice. From John Portman's architect-as-initiator model to cityLAB's research-based, innovative community-driven proposals, these works seek to define their own problems, audiences, and missions. The can-do spirit of each of these projects echo the collaborative, team-based methodologies of 306090 Books, co-presenters of the U.S. Pavilion with Atlanta's High Museum of Art. The impressive scale, reach, and beauty of the participants' projects makes their ground-up formation all the more inspiring.
