Aviation Maintenance Technician Series: Airframe: Volume 2: Systems Dale Crane

This four-book series includes all of the aeronautical knowledge required for the Federal Aviation Administration (FAA) Knowledge Exams for Aviation Maintenance Technicians. These industry standard textbooks each contain a study guide in the form of a review and answer key, making a combined textbook and workbook more convenient for both the student and instructor.

A detailed course covering the various systems involved with the airframe can be found here, encompassing electrical, fuel, cabin atmosphere control, instruments, communications and navigation, ice and rain control, and fire protection systems. There is also a discussion on aircraft inspections.
